The Band Hall Project

The Mississippi State University Bands are proud to announce that the fund drive for our new facility has officially begun. Through the generosity of the athletic department, numerous alumni, and friends of the band, approximately \$1.15 million has already been raised for this project. However, with the projected cost of the new facility at \$2.5 million, we still need your help. The university is launching a 12-month development campaign to raise the remainder of these funds. If you would like to contribute to this project, please contact:
